

MISSION STATEMENT

Northwestern Oklahoma State University student-athletes make a difference in their communities through volunteer service on campus and in their hometowns. They are challenged each season to become actively involved and committed to working with a charitable organization, service group or community service while maintaining good academic standing. The positive impact that these student-athletes have made and continue to make on their communities can be measured by more than just touchdowns, tackles and receptions. By giving back to a community that supports them on the field every Saturday of their careers the Rangers have and will continue to develop team character as well as learn life long lessons of civic responsibility.
