

Timely Warning Policy

The Clery Act requires that a Timely Warning be issued alerting all faculty, staff and students of any incident that occurs on campus or in the community that poses a continuing threat to employees and students.

It shall be the policy of Northwestern to send a Timely Warning alert when an incident occurs on campus or in the community that poses a continuing threat to the safety or welfare of employees and students. Warnings and updates will be disseminated by Campus Police through the University's email system and the University's web site at www.nwosu.edu.

The alert will be cancelled as soon as it can be done safely.
