

SGA COOKER

Northwestern SGA and Housing has purchased a grill for all clubs and organizations to use. There is no charge but must be used only for a club or university event.

- You must check the grill out the day before or the day of the event and return it by the next morning.
- You must provide your own vehicle and hitch with a 2 inch ball in order to pull the grill.
- You must provide your own charcoal along with the cooking supplies.

I, _____ (name), am checking out the SGA cooker for _____ (organization). We will be using the grill on _____ (date). Our organization understands that we are liable for the grill as long as we have it in our possession. In the event that something was to happen to the grill, we understand we are responsible and liable for any costs it may entail.
