

Dean A. Scarbrough

Abbreviated Curriculum Vitae

Office Address:

106 Jesse Dunn
Northwest Oklahoma State University
Alva, OK 73717
Ph: (580) 327-8487

Home Address:

327 High Street
Alva, OK 73717
Ph: (580) 327-8072

Email: dascarbrough@nwosu.edu

Professional Experience

- Aug. 2009 – Present Chair, Agriculture Department (Northwestern Okla. State Univ.)
- Aug. 2012 – Present Professor of Agriculture (Northwestern Okla. State Univ.)
- Aug. 2007 – May 2009 Associate Professor of Agriculture (Northwestern Okla. State Univ.)
- Aug. 2002 – May 2007 Assistant Professor of Agriculture (Northwestern Oklahoma State University, Alva, OK)
- Jan. 2001 - Aug. 2002 Research Specialist I (Drs. Wayne K. Coblenz and Ken P. Coffey, Dept. of Animal Science; University of Arkansas, Fayetteville, AR)

Education

University of Arkansas (PhD 2002; Animal Science, Ruminant Nutrition)
Major Professor – Dr. Wayne K. Coblenz

University of Arkansas (MS 2000; Animal Science, Ruminant Nutrition)
Major Professor – Dr. Wayne K. Coblenz

Oklahoma State University (BS 1998; Animal Science)
Option – Food Industry (Meat Science)
Academic Advisor – Dr. H. Glen Dolezal

Carl Albert State College (1994-95)
General Education Requirements

Special Awards

Recipient of the Oklahoma Honorary State FFA Degree - 2013
NWOSU Bus. / E-Comm. / Agri. Department Outstanding Faculty Award - 2009

Doctoral Dissertation Title

Using Simulated Rainfall Techniques to Predict Losses of Forage Dry Matter Using Fiber Constituents as Internal Markers, and to Evaluate Changes in Nutritive Value and Ruminal DM Degradability in Wilting Orchardgrass and Bermudagrass Forages.

Masters Thesis Title

Effects of Calendar Date and Summer Management on In Situ Dry Matter, Nitrogen, and Fiber Degradation of Stockpiled Bermudagrass. Activities included: (i) investigating the relationships of summer harvest management scheme (hay vs. grazing), and stockpiling of bermudagrass on winter season quality characteristics and (ii) evaluating the effects of quality changes in stockpiled bermudagrass on ruminal degradation kinetics using the *in situ* procedure.

Teaching Experience

Professor of Agriculture - Northwestern Oklahoma State University, Alva, OK

Developed course materials for 8 hours of lower-level, and 31 hours of upper-level Agriculture courses that included:

- Fall
 - Ranger Connection 1011
 - Introduction to Animal Science 1124
 - Forage Crops & Pastures 3033
 - Animal Genetics 3413
 - Internship in Animal Science 3800
 - Sheep Science 4542
 - Swine Science 4643
 - Stocker & Feedlot Cattle Management 4623
- Spring
 - Livestock Feeding 2123
 - Horse Production 3422
 - Animal Reproduction 3443
 - Principles of Animal Nutrition 3543
 - Purebred & Cow-Calf Cattle Management 4613
 - Capstone to Agriculture 4480
- Summer
 - Natural Resource Conservation 4480

Teaching Assistant – University of Arkansas, Fayetteville, AR

Served as a teaching assistant in the following courses:

- Feeds and Feeding (ANSC 2143)
- Milk Production (ANSC 4452)
- Forage / Ruminant Relations (AGRN 6253)
- Advanced Hay and Silage Production (ANSC 5103-Special Problems)
- Animal Nutrition (ANSC 3143)

Publications

Refereed Journal Publications

Scarbrough, D. A., W. K. Coblenz, K. P. Coffey, J. E. Turner, G. V. Davis, and D. W. Kellogg. 1999. Effects of calendar date and summer management on in situ dry matter digestibility of stockpiled bermuda. *J. Anim. Sci.* 77 (suppl. 1):209.

Castle Chronicle Publication

Scarbrough, D. 2003. Fisher's subcommittee reviews fundamental requirements for accreditation. Castle Chronicle. Volume. 2. Issue 1. February 3, 2003.

Review / Editing Manuscripts Considered for Publication in Referred Publications

- Effects of weaning management strategies on performance and health of calves. For publication in the Professional Animal Scientist. Boyles, S. L., Loerch S. C., and Lowe, G.
 - Associate Editor = Dr. Wayne Kellogg, Department of Animal Science, University of Arkansas, Fayetteville.
 - Reviewed June 2007
- Impact of rotation frequency and weaning date on forage availability and nutrient composition, species composition, and growth performance by cows and calves grazing endophyte-infected tall fescue pastures overseeded with crabgrass, lespedeza, and red and white clover. K. P. Coffey, W. K. Coblenz, D. S. Scarbrough, J. B. Humphry, B. C. McGinley, J. E. Turner, T. Smith, D. Hubbell, III, Z. B. Johnson, D. H. Hellwig, M. P. Popp, and C. F. Rosenkrans, Jr. For publication in the Journal of Animal Science.
 - Reviewed December 2004

- Differently Processed Barley Grain for Lactating Dairy Cows: A New Clarification to a Conventional Challenge. Nikkhah, A., H. Sadri, G. Ghorbani, and A. Nikkhah. For publication in the Journal of Dairy Science. Manuscript # JDS-04-0647.
 - Reviewed December 2004
 - Associate Editor = Dr. Wayne Kellogg, Department of Animal Science, University of Arkansas, Fayetteville.
