# How to download and use an editable PDF file for Graduate Studies

1. Click on the document you will be using.
2. Once open, download the file to your desktop or file.
3. Rename the file if you wish.
4. Open the downloaded PDF file from your desktop or file.
   a. DO NOT edit the file from the webpage. You must download the PDF and save it to your computer first or all your edits will not save.

   HOW TO TELL IF YOU ARE EDITING THE PDF FROM WEBPAGE:

   The illustration on the left is opened in Adobe Acrobat and is editable and savable.

   The illustration on the right is open in a webpage and is editable but not savable.

5. Click in editable areas and start typing.
6. Save (or save as if needed) the file.
7. Open the file again to ensure you have opened the newly edited file.
8. When changing the file in the future, make sure you save it each time you make a change.
