

Assessment & Institutional Effectiveness

Assessment Newsletter

November 2014

The Office of Assessment and Institutional Effectiveness (A & IE) recently decided to begin using a newsletter as a means to disseminate assessment and survey results. The NWOSU community is extremely cooperative to give feedback

and we want to make sure our office provides you with results. We will send out a newsletter once per semester via your NWOSU email account. Please look forward to seeing more from the Office of A & IE in the future.

Course evaluations took place between November 3rd and 14th. We would like to say thank you to the faculty, staff, and students for your cooperation during this process. It's a joint effort and we are extremely appreciative.

-Office of A & IE

Co-Curricular Assessment

HLC Fall Workshop

At the end of October, NWOSU sent four staff members to St. Charles, IL to further develop our co-curricular assessment process. Co-curricular assessment will look at how students are learning about critical thinking, ethical leadership and service, and

fiscal responsibility outside the classroom (athletics, SGA, Greek life, etc.). Students will receive more information about co-curricular assessment in the months to come.

To view results from recent assessments, please go to the link below.
