Report of meeting with Administrators

Dr. Sheila Brinntall met with Dr. Steve Lohmann on June 26, 2012, and reported on the following:

- Blocking classrooms from certain websites – Administration responded it is not possible without disrupting internet access to other areas of building.
- Bahama Breakaway – Senator broached the subject of moving that activity to the afternoon of Assessment Day. Administration will take this request under consideration.
- Excessive absences of athletes – Senator questioned the amount of class absences by athletes due to scheduled games. Administration noted that scheduled departure times for the games will be later than previously scheduled to stay compliant with NCAA candidacy.
Additionally, only a few Tuesday and Thursday games will be scheduled in the new conference.

- Print shop – Senator express concerns from off-campus community members, as well as on-campus community members, about print jobs not being completed by agreed times and dates. Administration is currently addressing the concerns.
- Dead week (revisited) – Senator wanted to make inquiry into different final schedule so that students would not have to take exam the day after the class finished. Administration responded that the schedule will remain as is.

**Selection of faculty representatives for two-year term on Athletic Advisory Board**

Dr. Steven Maier is the Northwestern Oklahoma State University representative for the State Regents Faculty Assembly for 2012. The Regents Faculty Advisory Council meets once a month via ITV from Oklahoma City. Response by Dr. Lohmann and Brand Franz  

Ranger Connection impressions/content  
Dr. Steve Lohmann presented a brief history of Ranger Connection at NWOSU, including instructors for the course, NCA concerns, and expense to students; he outlined key aspects of the course. Mr. Brad Franz
addressed the specific concerns regarding the content, the on-going process of re-vamping the course to make it more relevant to students, and the purpose of the course. Examples of content include note taking, study skills, financial aid, and important academic facilities available to the students on campus such as the library and the Academic Success Center. Purpose of the course is to help students learn how to navigate the procedural side of the college experience as well as to prepare them for academic course work and overall success for college.

Concurrent Enrollment
Dr. Lohmann addressed the item of concurrent enrollment through interactive television (ITV) with the K-12 schools. Two additional studios are being constructed for this purpose; one each at Alva and Woodward through a USDA grant. Enid did not qualify for any disbursement of funds.

Spring Commencement
Dr. Lohmann and Mr. Franz both addressed this item. Spring commencement is held at NWOSU’s largest facility in order to allow for the greatest number of attendees.

Online course with Kansas
Senator asked for clarification regarding online courses crossing state line. Dr. Lohmann explained the regulations associated with online courses and the fees to the universities to have courses cross state lines.

Quality of teaching and academic activity—including time and resources for professional publication, research, and scholarly/creative activity—were felt to be affected by a combination of various factors: heavy teaching load, number of office hours, and diverse demands on faculty such as committee activity, accreditation processes, accounting reports, and curricular and extra-curricular responsibilities above and beyond classroom teaching.

_____________________________________________________________________________________

1. Call to order at 12:09 p.m.

2. Visit by Dr. Steve Palmer, Faculty Athletic Director

   In calling for the maintenance and sustenance of a positive environment at sports events, Dr. Palmer encourages faculty to attend student athletic events, as well as to encourage departmental colleagues to do the same. With the university having entered the NCAA, there are new considerations to mind:

   1. Institutional control – The President and the faculty need to maintain the control in accordance with NCAA.
   2. Student-athlete wellbeing (educational experience, health issues, coach-athlete relationship, gender equity).
   3. Advising – Under NCAA rules, 12 hours minimum required, with hours contributing towards graduation; before a student enters the 5th semester (junior year), his/her major needs to have been declared. If a student needs to change majors, this must happen at the beginning of the semester, before the 5th semester of study. Dr. Palmer will put together information to hand out to faculty.

Activities which student-athletes will engage in in the near future:

   1. Student athletes will go through a mandatory Life Skills seminar led by Dr. Joseph Nanna. Job-hunting and interviewing skills will be discussed, followed by optional participation in mock interviews.

   2. Student athletes will be attending a health seminar addressing substance abuse and usage.

   3. Student-athletes will be engaged in Bowling for Wishes fundraising event, with goal of $1500 to $2000.

3. Approval of old minutes: December 12, 2012 minutes -- Ms. Dana Roark motions to pass it; Ms. Kimberly Weast seconds. January 20, 2013 minutes -- Dr. Jesse Schroeder motions to pass it; Dr. Warden seconds.

4. Old Business:

   a. Follow-up on issue of faculty load and pay raise: Per discussion with Administration, there is no change in faculty load and pay. Regarding office hours, this may possibly be reduced in the future to 8 hours as well as other sister institutions. Regarding NWOSU have opportunity to hire new faculty, priority will be given to full-time math and science faculty; qualifying adjunct instructors usually difficult to find due to region of university’s location. Senator raised question about the possibility of having graduate students teach introductory-level courses; another Senator comments that graduate
students’ studies need to lie within the college of studies to which the instructional subject pertains.

b. Faculty Evaluation – Issue of rubric inconsistencies between peer evaluation forms and the rubric. There is no section for course management and the teaching evaluation in the faculty evaluation form, but Senator indicates that those sections are for administration and chairs to evaluate. Faculty Senate requested that this be clarified to entire faculty. FEAD committee will meet tomorrow, March 12, 2013, at which time these issues will be addressed.

c. Class assessment by students: Time taken out of classes to do course assessment needs to be restricted to the particular class in which students are taking time out to evaluate. Senator mentions that sometimes instructors’ evaluation are inaccurate due to labs, textbook, and/or technology since these teaching resources might not necessarily be included in the instructor’s class. Assessment day evaluation may not work due to students not concentrating on one particular instructor at a time; also, no faculty evaluations in Spring.

d. New class time additions due to university school closures: Senators share the understanding of the new time additions, but the implementation of it in an effective way not always successful due to threshold of student absorption of materials, 5 minute transition to next class.

5. Next Faculty Senate meeting: Monday, March 25, 2013, 12:00-1:00 p.m., EC108/Enid 210.

6. Move to adjourn meeting at 12:55 p.m. by Dr. Mary Ellen Nutter, seconded by Dr. Sarah Chan.

ABSENT: Mr. J.W. Platt (class)

seconded by Ms. Dana Roark.

3. Old Business:

   a. Travel Office Issues
      i. Travel office issues seem to have been resolved.
      ii. Vehicle reservations administration has changed. Senator suggested that the  
          corresponding email address for vehicle reservations administrator be updated  
          when possible, especially with regard to knowing whom to contact via regular  
          email exchange; while the former administrator’s email has been retained on, 
          and  
          works through the vehicle reservation webpage, the email address does not work  
          via regular email correspondence. Senators shared that the maintenance office  
          cannot presently update vehicle reservation webpage, but that the email service at  
          least works fine when it is done through the vehicle reservation page.

   b. Sabbatical Leave Policy
      Issue of sabbaticals not being granted due to budgetary concerns and other issues  
      were addressed. Senate recommended that faculty handbook notes on sabbatical  
      be reviewed to reflect present institutional outlook and practice (sabbaticals are  
      offered and noted in the faculty handbook, but are not necessarily granted). Senate  
      recommends setting up committee to review sabbatical policy and present  
      its findings to the administration for review of the written policy. Dr. Tim  
      Maharry will chair the committee and invite interested faculty to the meeting.

   c. Faculty Advisory Council: Topics selected for 2013 work plan
      Minutes from the Faculty Advisory Council meeting of the Oklahoma State  
      Regents for Higher Education on January 16, 2013 were passed along by Dr.  
      Steven Maier to the Faculty Senate President. Per the minutes, the following  
      topics were selected for the 2013 work plan and shared:
      1. Improve services for current military, veterans and family members  
         including use of prior learning assessment: Discussion topics include  
         offering services on campus, dealing with PTSD, and contributing to the  
         State Regents ongoing efforts.
      2. Identify and share best practices for IT services and support for faculty:  
         FAC will work with the COIT to promote the sharing of best practices.
      3. Clarify faculty issues and benefits including work load, adjuncts,  
         salaries, retirement, and health insurance: Discussion includes the
collecting of examples of changes in workload policies or practices and impact of changes in health care options on adjunct contracts.

4. Improve college graduation rates including use of on-line courses and reducing textbook costs: FAC will monitor and contribute to the work of the State Regents Online Task Force.

5. Improve preparation for higher education of all students including those direct from high school, adults, transfers, and lower division students in areas including math, reading, writing, listening, and financial literacy.

4. New Business

**Inappropriate Behavior in Jesse Dunn**

Faculty constituents’ concern about March 15th presence of high school regional speech tournament debate in Jesse Dunn Building were discussed in connection with suspected acts of vandalism of certain rooms (hinges of doors removed as one example), concerns about potential thefts of classroom equipment /technology, and noise level of high school students during this event. Ms. Kimberly Weast commented that the administration had been notified about the building usage prior to the event and any usage of building facilities had been approved; miscommunication or non-communication between parties using building, faculty, and administration may be issues that could be better addressed in the future. The issues of door hinges and coffee machine may have been mistakenly blamed on the event presence. Ms. Kimberly Weast has been working with administration and faculty on the issues and graciously offers her assistance wherever possible for improvements vis-à-vis future events.

5. Other

**Student-athletes and academic advising**

The suggestion was brought forth that advisors for student-athletes ought to be faculty academic advisors rather than coaches, and that academic advisors counsel in a student-athlete’s major area of study. Dr. Tim Maharry additionally recommended that, with faculty doing academic advising, Title III grant advisors could continue the supportive role of making regular grade and courtesy checks on students.

6. Move to adjourn meeting: Ms. Kimberly Weast motions to end meeting; Dr. Tim Maharry seconds.

Respectfully submitted,
Dr. Sarah Chan
March 25, 2013
1. Call to order at 1:10 p.m.

2. Report on Meeting between Administration and Faculty Senate President/Vice President

   a. Sabbatical Leave: Dr. Lohmann highlighted the description on sabbatical leave from the faculty handbook. Dr. Cunningham mentioned that RUSO requires the description to be in the faculty handbook. Administration is willing to work together with faculty to find a solution to sabbatical leave issues. Administration welcomes the creation of a faculty subcommittee to analyze the situation and to come up with creative solutions to the issue. The lack of adequate adjunct instructor pool is one reason keeping the sabbatical leave option from being fully operant.

   b. Academic advising: Dr. Lohmann shared that because faculty members are not always available during summer and between semesters, staff is therefore included in advising activities. Coaches are recommended to advise only in their field (health and sports science). Note: Dr. Maharry recommends that any advisors who are not on faculty should follow up with an email to the Chair of the appropriate departments concerning advisement of students in those departmental majors.

   c. Off-campus events on campus: Dr. Lohmann shared that collaboration with faculty continues to ensure the security and safety of campus facilities.

   d. Teacher pension rates: Legislature is considering a change of how public pensions are determined; an averaging of entire salary from beginning to end of tenure is being considered as an alternative plan to replace the current plan which averages last three years of service. Dr. Cunningham shared that this proposal would define contributions rather than the current benefits program; at the present, no bill has yet been passed.

3. Old Business:

   a. Sabbatical Leave So Far Agreement

      Dr. Maharry is in the process of gauging the level of cross-campus interest in the issue of sabbatical leave. Nine additional faculty members are interested in
joining the subcommittee on sabbatical leave. Discussion on budget and funding was raised in initial discussions. Questions raised in the meeting: How often would the university offer and/or grant sabbaticals? Are faculty members aware that there is a sabbatical option? How many faculty members have recently applied for sabbatical? Could faculty members afford the offered pay if sabbatical is granted? Group is also researching what other comparable institutions are doing with regard to sabbatical leave (offers, funding, etc.).

Options discussed: 1. Sabbatical leave being funded by outside source, with sabbatical leave in these cases being called “leave of absence”. 2. Unpaid sabbatical leave funded from other sources. Dr. Place talked to the NWOSU Foundation about raising money and interest for sabbaticals.

Research will be conducted over summer, with next meeting anticipated in Fall 2013.

b. Issue of offering interview and job training for student-athletes

Following the dissemination of Faculty Senate minutes for March 25, 2013, a faculty constituent voiced concern about whether the Faculty Representative to the Athletics Department should be in charge of job training for student athletes. It was decided by Faculty Senate that the Athletics Department’s decision to offer career training does not impede individual departments’ career development activities for their respective students. Individual departments can hold their own job training activities in addition to those conducted by the Faculty Representative to the Athletics Department.

4. New Business:

a. Title III Requirements vs. Academic Freedom and Low Course Standards

Concern was brought up that Title III requirements for a certain department included regulating a number of aspects considered to belong to the realm of academic freedom, including the number and nature of exams to be taken. The question was raised as to whether course redesign was a misinterpretation of Title III. Faculty Senate recommends that departments and faculty members concerned about issues of Title III should contact Dr. Dennis Angle.

5. Other: Evaluation of Faculty Committees for 2013-2014. Ms. Roark suggested need for more members for the Social Committee, particularly as the Committee could both generally use more help as well as have more assistance when one or two committee members are absent for functions. Dr. Maharry recommended that administration restructure Social Committee and contract Chartwells to assist in running more of the social functions; Ms. Guerra seconded this. Ms. Roark brought up concern about such recommendation, so no motion was taken. The discussion was tabled for a further date.

6. Next Meeting – April 29, 2013
Northwestern Oklahoma State University  
Faculty Senate Meeting  
Monday, April 29, 2013 1:00pm-2:00pm  
IE 128 /Enid 208

PRESENT: Dr. Sarah Chan, Dr. Tim Maharry, Dr. Mary Ellen Nutter, Mr. J.W. Platt, Dr. Beverly Warden, Dr. Claudia Young, Dr. Wei Zhou

ABSENT: Ms. Brandice Guerra (ill), Ms. Dana Roark (class), Dr. Jesse Schroeder (class), Ms. Kimberly Weast (class)

1. **Call to order at 1:09 p.m.**

2. **Approval of March 25, 2013 Minutes** – Dr. Maharry approves the April 22 minutes; Dr. Warden seconds.

3. **Standing Committee** – As President of Faculty Senate, Dr. Young will be finalizing the faculty assignments and email the Senate for its approval.

4. **Concern about anonymity factor of faculty assessments of administrators:** Concern by some faculty constituents that assessments did not seem to be completely anonymous since employee I.D. numbers were requested. Dr. Maharry shared that only one individual on campus, in I.T., could trace any particular evaluation via employee I.D. and that the number is used only to verify that specified employees could process evaluations. Faculty Senate recommends that I.T. clarify its email message to state that although the evaluation entry page requests an employee’s I.D. number, it is requested only to ensure that a single employee/user is given access to a single evaluation at any given time. Dr. Maharry will also check with I.T. as to whether the evaluation forms are destroyed after all information from them have been recorded.

5. **Dr. Maier’s comments at the Annual Budget Hearing at the OSRHE were shared. These include:**
   a. The hope that regents approve modest tuition increases as a part of an effort to keep quality of the state’s institutions from slipping.
   b. The effects of budget cuts resulting in diminished quality of instruction at institutions. Examples include the increased student per faculty ratio, fewer faculty hires, faculty members teaching outside of their areas of expertise).
   c. Fewer faculty members factor into students taking longer to complete their undergraduate degrees.
   d. The issue of tuition increases. Tuition increases will likely need to be part of the solution to funding education, and it is unlikely that any single, straightforward solution will present itself toward funding education. The burden of the funding of education being shifted onto students through tuition increases, however, is not desirable.

6. **Continued Concern about Students Evaluations of Faculty on a Single Day:**

   Responding to Faculty Senate minutes of March 25, a faculty constituent voiced concern
that faculty/course evaluations occurring on one day was not ideal to usage of class time and suggested evaluations take place on a single day. FEAD had, in previous times, reviewed the issue of same-day faculty evaluations vs. singular evaluations done on different, specified days (namely, the present practice of the evaluation process). Concern was voiced that should the evaluations for diverse courses be achieved in one sitting, students may be more prone to confusing their views on faculty members and courses. Dr. Maharry shared that Leah Haines was also concerned that online overload might result should all surveys be completed on a single day. Concern about valuable class time lost is understood, but as there remains no ideal or comprehensive solution, some Faculty Senators felt it best to leave the present evaluation procedures intact. Dr. Warden shared that she does “Question and Answer Day” on days of faculty assessment.

—Respectfully submitted,
Dr. Sarah Chan
